SHE'S A SORRY WRECK

Teresa Pounding to Pieces on Cat Island Reef.

EXAMINING BOARD'S REPORT

Submitted by Captain McCalla to the Navy Department.

WINDS, SURF, TIDES AND ROCKS

Inflicting Cruel Wounds on All Parts of the Once Proud Cruiser, Whose Hull May Be Said to Be Revolving Slowly Around Her Machinery.

Washington, Nov. 16.—The navy department has received the following cablegram, dated Nassau, from Captain McCalla of the board appointed to examine into the condition of the wrecked Maria Teresa:

"On arrival at Cat Island I took charge of the Maria Teresa and hoisted our flag. After careful examination of stranded ship and careful consideration of instructions from department, I regret exceedingly to express the opinion that it is hopeless to rescue the ship. Craven, Blow, Hobson and Crittenden confirm my opinion.

"The wreck is stranded in from 16 to 21 feet of water with head to northward. With exception of few feet astern and forward, where cut away, ship rests on rocky reef, covered with coral sand, interspersed with boulders. Passed Sunday on wreck examining carefully all compartments which were not flooded, as well as ship's surroundings. Evidences show that after striking reef, mainmast was driven up and broken off short below spar deck, military top lying outside bilge under port quarter. Seas had gone entirely over her, the inner bottom generally had been driven upwards from 1½ to 2 feet, patch on bottom abreast forward turret had disappeared, air ports had been driven in and seas had entered through them and gun ports on starboard side, spar deck and deck houses had been crushed in by seas after ship struck. Large proportion of the lumber in short pieces lying or floating below berth deck.

"The tide rises and falls in ship below protective deck abaft engine room bulkhead. Seas which now break over starboard quarter and enter through ports, keep water in that part of ship five or six feet above line of that in engine rooms and fire rooms. Pumps which were erected by wrecking companies on forward and after ammunition hoists and secured to berth deck beams have been driven upward from 18 to 24 inches. Both starboard and port engines have been forced upwards from 1½ to 4 feet to be separated laterally by from six to seven inches. The best way to illustrate general condition of wreck is to say that the two sets of engines, boilers and their foundations form part of reef itself, around which rest of ship works laterally and vertically. Can best describe condition of ship generally by stating that she is already telescoped and my views, by expressing conviction that as rivets are sheared by the constant working of ship the telescopic process must continue.

"In considering practicability of rescuing Teresa the fact must be considered that she lies upon coral reef, with but thin layer of sand, on windward side of an island constantly exposed to seas due to trade winds and to influence of many storms developing to eastward or southward. Character of bottom makes anchorage off eastern coast of island dangerous. Should department determine to attempt to float stranded ship, would recommend that expedition be based on Cat Island, not from ship's outside reef, and should be very pleased to command any organization prepared to work on wreck. In addition to turret guns there are four 6-inch guns on Teresa taken from one of the wrecked ships and remounted in Guantanamo."

STAND BY THE PROTOCOL.

Else the Spaniards Will Refuse to Sign a Treaty of Peace.

Madrid, Nov. 16.—According to semi-official statements here the Spanish peace commissioners will maintain their present attitude in regard to the Philippine islands.

They will certainly not accept the conditions of the United States. If the discussion does not return to the limits of the protocol, as viewed by the Spaniards, the Spanish commissioners have decided, in spite of contrary reports, not to sign a treaty of peace.

It is also learned from the same sources that complete accord prevails between the Spanish government and its peace commissioners.

John Bull's Scheme.
Madrid, Nov. 16.—The impartial,

commenting upon the loan which Don Carlos, the pretender to the Spanish throne, is said to have raised in London, says: "Evidently the English are abetting an outbreak of civil war in Spain, with the object of securing additional territory at Gibraltar. The Americans employed the same methods to become masters of Cuba."

Colonel Williams' Remains.
Havana, Nov. 16.—The remains of the late Colonel Williams, chief quartermaster, were conveyed to the steamer Saratoga for shipment north.

To Have Another Test.
Washington, Nov. 16.—The navy department, having been notified by the builders, Wolff & Zwicker of Portland, Or., that the torpedo boat Davis, which sustained an accident on her last trial trip, has been repaired, has reassembled the trial board, headed by Commander Drake, and ordered another trial on the Columbia river next Tuesday.

NO MORE TRIFLING.
America Will Take Control of Affairs in Cuba on Jan. 1.

Washington, Nov. 16.—The government has renewed and strengthened its determination that the Spanish vacuation of Cuba and the American occupation shall not be deferred beyond Jan. 1.

This conclusion has been communicated to the Spanish government within the last few days in answer to an urgent request that the date of evacuation be put off because of the large number of Spanish troops remaining on the island, who, it was represented, could not be moved before Jan. 1. Not being a subject which could be treated by the commissions at Paris or at Havana, the request of the Spanish government was forwarded to Washington through the French embassy, which received also and forwarded by cable, the refusal of this government to put off the date of assuming American control.

Porter's Report on Cuba.
Washington, Nov. 16.—Hon. Robert P. Porter, special commissioner for the United States to Cuba and Porto Rico, has presented his report to the president and secretary of the treasury. The report goes very fully into the financial and economical condition of Cuba, analyzing the budget of that island for 14 years, showing the sources of income and the causes of expenditure. There are some supplementary reports yet to be made. There are also among the data and the testimony collected many valuable general statements in relation to the financial, industrial, commercial and social conditions of the island of Cuba, which form a nucleus for a report on the possibilities for American enterprise and the opportunities for American capital and labor when the more pressing question of the government and revenue and taxation of the island have been settled.

Want to Return Home.

Washington, Nov. 16.—Great pressure is being brought upon the war department to have the volunteer troops now in the Philippines return to this country. Nearly every state that has troops stationed at Manila has asked, through its governor or representatives in congress that these troops be sent home. This pressure comes through the relatives and friends of the volunteers, who have been writing none. While they do not recount very great hardships, except among those who are ill, they do show that the life is very obnoxious, and that the duty of holding the city of Manila and remaining inactive is very disagreeable. It is said at the war department that there is no way of relieving these troops from duty in the Philippines at the present time.

Short Cabinet Meeting.

Washington, Nov. 16.—Attorney General Griggs and Secretary Bliss were not present at the cabinet meeting, having left on the 11 o'clock train with Mr. Dawes, the comptroller of the currency, to attend the banquet to be given by the New York Chamber of Commerce. The meeting occupied less time than usual, and at its conclusion it was said that nothing of special importance was under discussion. Administration officials do not share the opinion expressed in some quarters that the Paris peace commission will fail in its efforts to agree upon a treaty.

Nobleman in Disgrace.

Lexington, Ky., Nov. 16.—Baron Waldeck de Villamil, an Austrian nobleman and a captain of the Seventh volunteer infantry (immunes), is in disgrace and has left for parts unknown. A few days ago he was discharged from his regiment for various offenses, principal among which was refusing to pay his debts. He owed money to many officers and men and had large accounts with several merchants. Creditors swooped down upon him in his tent and attached his sword and his uniform.

Krag Rifles in Plenty.
Washington, Nov. 16.—Secretary Al-

ger, after a conference with Adjutant Corbin and Major Shaler of the ordnance bureau, decided that the United States armories have progressed with the manufacture of the Krag-Jorgenson rifles to a point where he could undertake to arm the entire army with this weapon. The armories have been turning out the small bore rifle at the rate of 9,000 a month.

Will Resume His Command.

Washington, Nov. 16.—General Merritt will resume command of the department of the east with headquarters at Governor's Island, when he returns from Europe and General Shafter will go to San Francisco to command the department of the Pacific.

Turf Winners.

At Lakeside—Antiquary, Bonnerges, Imp, George Lee, Dave Waldo, David.
At Latonia—Stanza, Eracuple, Tom Collins, Mordecai, Schancken, Joe Shelby.
At Nashville—Mitt Boykin, Prospero, Truelight, Luckman, Carlotta C.
At San Francisco—Obsidian, Una Colorado, Key Del Tierra, Lost Girl, San Vendo.
At Benning—Saratoga, Dr. Parker, Dan Rice, Leando, Jefferson.

The Weather.

For Kentucky—Warmer; fair in eastern and showers in western portion; east winds.
For West Virginia—Warmer; increasing cloudiness; variable winds.
For Ohio—Fair; warmer; brisk southwest winds.
For Indiana—Fair, except showers in extreme southern portions; warmer; increasing south to southwest winds.

TEN KILLED OUTRIGHT.

A Flying Canadian Express Crashes Into a Standing Freight.

Kingston, Ont., Nov. 16.—By a wreck on the Grand Trunk railway at the Diamond crossing near Trenton, Ont., 10 persons were killed and about 20 more or less injured, several seriously, and one perhaps fatally.

A freight train of three cars was endeavoring to enter a siding when the Montreal express, eastbound, crashed into it at full speed, completely wrecking the freight train. The engine and several cars of the express were derailed, burying the fireman and engineer and an extra engineer named Riley, who was on his way to Belleville to take charge of an engine. A wrecking train was dispatched to the scene at once and the crew set to work, with the assistance of the uninjured passengers, in rescuing and caring for the dead and injured.

Meteoric Showers.

New York, Nov. 16.—Astronomers' observations of the meteoric shower were not wholly satisfying. Professor Reese of Columbia university said: "I saw only two meteors. They came from the direction of Ursa Major and not from Leo, as had been expected. There should be a magnificent display at the disintegration of Bella's comet."

Presbyterian Young People.

Pittsburg, Nov. 16.—The general committee of the Young People's Christian union of the United Presbyterian church met here to select a place for the next meeting of the union. Cincinnati made a strong bid for the honor, but after considerable discussion, Pittsburg was selected. The convention will be held from Aug. 2 to 5.

Ohio Captain Soaked.

Knoxville, Tenn., Nov. 16.—Captain F. M. Bell, Second Ohio, charged with failure to disperse a riot at Chickamauga, the men having a disorderly meeting concerning their muster out, was found guilty by the court martial, and sentenced to be deprived of his command for 30 days and to forfeit one-half of his pay for two months.

Meeting of Fox Hunters.

Bowling Green, Ky., Nov. 16.—The National Fox Hunters' association inaugurated its meet here under the most favorable auspices. Two chases made up the day's sport and so close was the competition that the judges could not render a decision and the derby will be continued and it may be several days before a decision is reached.

To the Rank of Ambassador.

Washington, Nov. 16.—The Austrian minister, Mr. Von Hengelmüller, and his wife, sailed for home, where the minister will spend a six months' leave. There is little doubt that negotiations now in progress between this country and Austria will lead to the accrediting of ambassadors, instead of ministers, between them.

Again Knocked Out.

St. Paul, Nov. 16.—The temple matter came up again in the Woman's Christian Temperance union and a resolution endorsing the temple was defeated by a vote of 76 to 277.

Steamer Columbia Lost.

Seattle, Wash., Nov. 16.—The steamer Centennial, which arrived here from Hilo, reports that the steamer Columbia, from Honolulu to this port, sank in the harbor of Hilo on Nov. 2. The Columbia opened her seams when about 400 miles off the Hawaiian coast and immediately put back to Hilo. She had a number of passengers on board, but there were no casualties.

AS VIEWED BY BRYAN

Cause of Republican Victories at Recent Elections.

THE SPANISH WAR DID IT.

Free Silver and Other Questions of the Chicago Platform Were Not Issues, and Are Only Sidetracked Until Peace Is Declared.

Lincoln, Neb., Nov. 16.—Colonel William J. Bryan gave out the following statement relative to the late election:

"While I do not understand that service in the volunteer army prevents a soldier from expressing opinions upon political questions, I declined to take part in the late campaign lest I should be accused by partisan opponents of attempting to embarrass the administration. Now that the election is over, I shall exercise the privilege of discussing the returns.

"Compared with the election of 1896, the Republicans have gained in some places and lost in others. It was not a sweeping Republican victory. On the whole hand, the result is not surprising when it is remembered that the administration is just concluding a successful war.

"While a majority of the soldiers are probably anti-Republican, the management of the war has been entirely in Republican hands, and the strongest argument used during the campaign was that a Republican defeat would discredit the president in the eyes of foreign nations, while his commissioners were engaged in making a treaty.

"It was not a trial upon the issues now before the people, but a successful plea for a continuance of the case. The people have not accepted the gold standard; they have not fallen in love with the plan to give the banks a monopoly of the issue of paper money; they have not decided to retire the greenbacks; they have not surrendered to the trusts.

"These questions were forced into the background by the declaration of war, but they must be faced again as soon as peace is restored. The Chicago platform presents for public consideration certain vital, economic questions. That platform has not been abandoned by those who indorsed it in 1896. It will be reaffirmed in 1900 because it gives expression to the hopes and aspirations of a large majority of the party.

"When the Democrats, Populists and Silver Republicans favored Cuban independence, they understood that war would give a temporary advantage to the party in power, but they were willing to risk defeat in order to aid the people fighting to be free.

"Neither can the election be regarded as an indorsement of any definite foreign policy. Until a treaty of peace has been entered into and the terms made known, the people can not pass judgment upon it. Whether the war will raise any question of sufficient importance to turn public attention away from domestic problems remains to be seen."

In regard to the Nebraska election he said: "A light vote was cast in Nebraska but the fusionists have elected the entire state ticket and carried the same congressional districts that they carried in 1896. If Senator Allen is defeated for re-election it will be because senators are elected by legislatures instead of by the people. If a Republican senator is chosen by the new legislature he will go to Washington to represent a minority of the people of the state and to thwart the will of the majority."

Anglo-American Conference.

Washington, Nov. 16.—Sir Wilfrid Laurier, premier of Canada, and Sir James Winter, premier of Newfoundland, have arrived to take their seats in the Anglo-American joint commission. Mr. T. Jefferson Coolidge of Boston also came on, thus completing the American membership. The commission held a brief session and then gave way to meetings of the British and American members separately. These separate conferences were for the purpose of going over the grounds on which reciprocity can be discussed.

Fraternal Conference.

Baltimore, Nov. 16.—The executive board of the National Fraternal conference, composed of the supreme officers of the Knights and Ladies of the Maccabees, began its annual session in this city, and will continue in session until Friday next. There are about 160 delegates in attendance.

Noonan Will Contest.

Houston, Nov. 16.—George H. Noonan, defeated Republican candidate for congress in the Twelfth district, has announced that he will contest the election of James L. Slayden, Democrat. Slayden carried the district by upwards of 5,000 plurality over Noonan.

EARTH'S MEASUREMENT.

Plan to Take Continuous Latitude Observations Encircling the Globe.

Washington, Nov. 16.—The work of the International Geodetic association at its Stuttgart conference last month, which is expected to bear fruit of far-reaching importance to the scientific world, is announced by Mr. A. D. Preston of the United States coast and geodetic survey, who represented this government there, and who has just returned to Washington.

The prime object of the conference was the measurement of the earth, and action was taken for the measurement of an arc at the equator. This, taken in conjunction with the measurement of an arc near the pole now under way by the Swedes and Russians, will throw new light on the flattening of the earth. The comparison of the two measures will make it possible to determine how much shorter the polar diameter is than the equatorial, a knowledge of which is important both in the making of maps of great extent and in the solution of many astronomical problems.

Now the international association has determined to go to the bottom of the matter, and has planned to take up the work of continuous latitude observations at six stations encircling the globe near the thirty-ninth degree of north latitude.

This parallel passes a little north of Washington and San Francisco, through Cincinnati, and crosses Japan, Turkestan and Italy. In each one of the countries named an observatory will be erected.

The three stations in the United States will be at Gaithersburg, Md.; Ukiah, Cal., and, of course, at Cincinnati, the exact parallel chosen by a happy coincidence passing through the regular astronomical observatory which has been established there for many years.

Boycotting Declared Illegal.

Lansing, Mich., Nov. 16.—A decision was rendered by the Michigan supreme court which, in effect, declares a boycott as unlawful and an unwarrantable menace, intimidation and coercion. The case was appealed from the circuit court at Detroit by Beck & Son, millers, who had obtained an injunction restraining the Railway Teamsters' union from interfering with the firm's employes or business, but sanctioning distribution of boycott circulars or any form of boycott excepting in front of complainant's place of business. The supreme court modifies the decree by enjoining all forms of boycotting.

Up to the Supreme Court.

Cleveland, Nov. 16.—In the Standard Oil hearing, Mr. Squire was on the stand all day, but Attorney General Monnett did not succeed in getting very valuable information from him. Mr. Monnett dropped his examination, notifying the Standard Oil attorneys that the state supreme court on Thursday, in Columbus, would hear any reasons they might have why citations for contempt of court should not be issued for refusal to answer questions of the attorney general before Commissioner Brinsmade.

To Revive Steel Rail Pool.

Pittsburg, Nov. 16.—An important meeting has been called for the near future of the steel rail manufacturers of this city and surrounding sections. The purpose of the meeting is to attempt to revive the old steel rail pool. One plan that will be suggested at this meeting is the idea of establishing a central selling agency. By so doing, it will give each steel rail manufacturing concern a certain allotment of orders, which will be based on the productive capacity.

Hanna's Correction.

Cleveland, Nov. 16.—Senator Hanna said that in his interview concerning the necessity for a revision of the war revenue and tariff laws he intended to cast no reflection upon the Dingley law. "What I said," declared the senator, "was that a revision of the tariff must eventually come. The revenue and tariff duties are declining because of the decrease in imports. I repeat that I am in favor of putting duties on tea, coffee and other articles which we cannot produce."

Mrs. Stevens Elected.

St. Paul, Nov. 16.—The Woman's Christian Temperance union convention on first ballot elected Mrs. Stevens of Maine, president, she receiving 317 of the 356 votes cast. Mrs. Susan M. Frye of Minnesota was elected corresponding secretary. Mrs. Clara C. Hoffman of Missouri was re-elected recording secretary on the first ballot, and Mrs. Frances E. Beauchamp of Kentucky was made assistant recording secretary.

Proceedings Not Public.

Chicago, Nov. 16.—The annual convention of the Knights of Labor began here. Over 100 delegates were in attendance. General Master Workman Hicks of New York called the convention to order. The proceedings will probably last a week or 10 days. The meetings are held behind closed doors.

GEN. BRECKINRIDGE, in his testimony before the War Investigation Commission Tuesday, stated that he thought "the quick success and the small cost of the campaign in Cuba was largely due to the fact that the Lord was on the side of the American troops, rather than the ability of those in command." Wonder what Gen. Shafter thinks about this?

GOVERNOR BRADLEY overruled petitions for pardons in a half-dozen cases Tuesday. In the case of Ed. Stevens, of Newport, one of the assailants of Mrs. Gleason, Newport citizens, in petitioning for his release, called attention to the fact that Stevens was of good family. In overruling the petition the Governor said that this fact is an aggravation of his crime. Good citizens everywhere will endorse that decision.

ACCORDING to Mr. Dingley, Chairman of the Ways and Means Committee, the Government will need the revenue from the war taxes for some time to come, and he thinks there will be no changes during the present fiscal year in the war revenue act, nor any revision of the tariff. Mr. Dingley knows that his pet tariff is not producing sufficient revenue, and that is probably why he wants the war tax continued. Boss Hanna and other Republican leaders believe in piling on the taxes and keepin' them there.

THAT War Investigation Commission is getting piles of evidence as to the mismanagement and incompetency of the War Department. Brig. Gen. Breckinridge appeared before the commission Monday to tell of the conditions at Camp Thomas, of which he had previously reported officially and vigorously. In his testimony Gen. Breckinridge declared that had the inspectors in the field been permitted to report to the Inspector General, as formerly, instead of to the Adjutant General, the condition of the camps would have developed and been corrected three months earlier.

POLICEMAN ROSSER this week recovered a lot of goods stolen from the Biggs House at Portsmouth, and expressed them to the owner Tuesday.

ANOTHER large audience was at the Christian Church last night, and interest in the services seems to be increasing. Preaching to-night at 7 o'clock by the minister. Subject: "Conditions of Becoming a Christian." The public cordially invited.

JOHN MONTGOMERY, of Columbus, O., has won his suit against A. E. Reed and others, to recover possession of \$100,000 of Columbus real estate, which he traded in 1896 for a tract of land in Bourbon and Breathitt counties, in Kentucky, known as the Duval tract. The suit was brought to recover possession on the ground of fraud, and was bitterly contested by both parties. There are 40,000 acres in the Duval tract.

THE Fleming Gazette says: "Mrs. Snodgrass, of Covington, has brought suit against the L. and N. Railroad for several thousand dollars damages, because she got off the train at Nepton on the night of July 4 instead of at Johnson. She alleges that the station was not called out by the conductor, and that the inconvenience of reaching Johnson caused her to injure her health. She is a daughter of D. Rankins, of Hillsboro, and was en route to the home of her father on a visit when the incident occurred."

JUDGE GEO. M. THOMAS, Solicitor of Internal Revenue, has returned to Washington. A special states: "Judge Thomas is very much pleased at Representative Pugh's re-election in the Ninth district, and says, while he was figuring on an increased majority, the present vote is good enough for all practical purposes. 'The Goebel bill,' said Judge Thomas, 'was not an issue in the Ninth district at the late election. The election seems to have been fair in all counties; at least, I have heard no complaint of the action of the officers conducting the election in the various precincts. There has been no objection to the actions of the County Boards except in Carter County. There the board seems to have exceeded its authority in the rejection of the votes of certain precincts.'"

FARMERS ARE FORMIDABLE.

Opposition to Tobacco Combine Would be Strong—Manufacturers Do Not Believe Movement Will be Effected.

[Courier Journal.]

The steps taken in Frankfort Saturday to organize the Kentucky farmers into opposition to the Continental Tobacco Company have caused considerable comment. The fact that about 100,000 Kentuckians are interested in the cultivation of tobacco would make organized action coming from them very formidable.

Those who met in Frankfort called a meeting for December 5th, when a tobacco growers' association is to be formed "to fight the trust formed for the purpose of controlling the price of every pound of tobacco raised in this country."

Mr. David O. Keller, Secretary of the Continental Tobacco Company, was asked what he thought of the action of the farmers.

"These meetings have been held before," said he, "but so far as I have been able to ascertain they have not amounted to much. So time ago I saw something about a movement on the part of the farmers to appoint commissioners who were to be sent to the big markets in Louisville and Cincinnati at the expense of the farmers, and withdraw all sales which did not net \$8 a hundred. That scheme appeared very unreasonable when the warehouse system is understood, and nothing was done about carrying it out, so far as I know."

"If the farmers organize as they say they will do, or are trying to do, of course the manufacturers can do nothing about it. The farmer is the best judge of what he wants. But it would seem to me if the farmers organized to withhold tobacco from the market they would be doing themselves more damage than anyone else. Tobacco is a delicate commodity easily damaged or rendered useless, and if the farmers should endeavor to hold it, they would probably find that they suffered a loss rather than gain. There is hardly a manufacturer who does not keep a year's supply of tobacco stored, but his facilities for storing and watching his tobacco are much superior to those of the farmers. When his daily inspection shows a package in danger, that package is worked up at once and saved. Farmers would not have this advantage."

"Manufacturers will need leaf when this so-called combine becomes effective, as well as before. I imagine that no fixed price will be guaranteed for tobacco. The price of tobacco, like the price of anything else, is governed by the laws of supply and demand. The quality of the offerings is also to be taken into consideration."

Mr. Keller was asked what the policy of the company would be with regard to buying tobacco; whether it would be bought in big markets like Louisville, or whether it would be bought in the country. He said the combination had not yet been effected, and, of course, its policy could not be outlined. It is understood that Liggett & Meyers have secured satisfactory results from buying from the farmers in the country. The American Tobacco Company tried it once, but it is understood that the method was not satisfactory, so they returned to warehouse dealing.

A Sleepy Crowd.

[Baptist Argus.]

Dr. Kerfoot started to his church Saturday and went to sleep on the train. Instead of getting off at Versailles he was carried on to Lexington. The boys are wondering if his sleepiness was produced by reviewing a soporific sermon, or the gentle, soothing rocking of the train. On that same train Brother G. W. Hambleton passed his station, walked eight miles and got to his church just as a Presbyterian was finishing his sermon. On the same train Brother J. M. Shelburn went past his station jumped off and injured one arm. There seems to be something fatal about this train.

Robbed the Grave.

A startling incident, of which Mr. John Oliver, of Philadelphia, was the subject, is narrated by him as follows: "I was in a most dreadful condition. My skin was almost yellow, eyes sunken, tongue coated, pain continually in back and sides, no appetite—gradually growing weaker day by day. Three physicians had given me up. Fortunately a friend advised trying Electric Bitters, and to my great joy and surprise, the first bottle made a decided improvement. I continued their use for three weeks and am now a well man. I know they saved my life and robbed the grave of another victim." No one should fail to try them. Only 50c. a bottle at J. J. Wood & Son's drug store.

Think Goebel Will Be The Winner.

[Cincinnati Enquirer.]

Col. Jim Rogers, of Lexington, Ky., clerk of Fayette County, and ex-Sheriff was at the Emery.

"I was firmly convinced before the election," said he, "that Senator William Goebel would be the Democratic nominee for Governor, and the result of Tuesday's poll over the State demonstrates it to a mathematical certainty. I don't see anything to it but Goebel. The election law has been passed upon and that settles it."

Mr. Henry Reed, the traveling man, of Lexington, Ky., also at the Emery, said: "I am not a politician, but Goebel will be nominated for Governor as sure as you live. He will assuredly carry Lexington. Heretofore I have always been a supporter of Gen. Wat Hardin, but Goebel is the man this time beyond doubt."

Mr. C. L. Sallee's son James, who has been seriously ill, is improving.

JOHN L. CASE, a brakeman on the C. and O. railroad, met with a severe and painful accident Monday at Garrison. While making a coupling his right hand was caught between the draw bars, breaking the little finger and severely mashing the member.

EX-COUNTY CLERK JAMES MCCREARY, of Fleming, has purchased of Mrs. Mary R. Wells, widow of the late Thomas Wells, 211 acres of land situated near Wedonia for \$11,000. Mr. McCreary will not take possession until March 1st next. He will farm the land, which is all in grass, but will continue to reside in Flemingsburg.

FIFTEEN steamers landed cattle, sheep and fresh beef at Liverpool during the week ending Oct. 22nd from American and Canadian ports, the arrival comprising 4,802 cattle, 547 sheep and 21,740 quarters of beef. Compared with the arrivals of the previous week they show an increase of 431 cattle, 928 quarters of beef and 547 sheep.

A Frightful Blunder

Cures old sores, fever sores, ulcers, boils, felons, corns, all skin eruptions. Best pile cure on earth. Only 25 cents a box. Cure guaranteed. Sold by J. J. Wood & Son, druggists.

River News.

The river is at a fine stage. The shipment of coal from Pittsburg this week amounts to 1,500,000 bushels. The Iron Age left Pittsburg Monday with \$200,000 worth of steel rails for New Orleans.

The Keystone State due down this evening with all she can handle. Stanley to-night. The Bonanza is to-night's packet for Pomeroy.

The Wheeling Intelligencer makes extended mention of the improvement in means of river transportation the past ten years, showing that there are to-day double the number of packets stopping at Wheeling, Steubenville and other points than 15 years ago. To-day 14 packets land one or more times a week there, and with the completion of the side-wheeler City of Pittsburg, now in course of erection at Moundsville, the number will be made 15. The boom in the local river trade has come because a larger traffic, both freight and passenger, is being handled in this part of the Ohio Valley because profits will not pay railroad freight.

Nuggets of Economy

Are easy to find in our Cloak department. We believe the same qualities, combining fit and material, cannot be found elsewhere in this city for the same price. This week we have, ready for selling, twenty-five Reefers for children of four to twelve years. To be sure the \$3.75 we charge is no sort of recompense for the garment we give, but that's where the bargain comes in. They're made of Scotch Cheviots, different color mixes, prettily trimmed in various styles.

Then Capes.—We shall briefly mention a lot more to show you. Thirty-inch Kersey Capes, high storm collars, silk-lined, \$5. Twenty-six-inch Plush Cape, broadened and braided, silk lined, \$5. Twenty-eight-inch Boucle Capes, silk faced, \$5.

You'll glory in the ownership of one of our Feather Boas or Fur Collarettes. Make welcome Christmas gifts. Either gives the finishing touch to a stylish costume. Year by year more of the fur selling centers here, because we sell for best and cheapest.

Dress Goods.—You've bought such quantities from us the past six weeks we are ashamed to ask you to buy more. But if you still have dress goods needs there is a wealth of material for selection here. English Broadcloth—everybody knows its texture and wear. British damask and damels wear it in their natty tailor suits; why shouldn't you? Several colors, fifty-four inches wide, \$1. A wardrobe is incomplete without a sturdy blue dress, storm serge, cheviot or kindred fabric that never pale at stormy weather. Every best kind is here, 25c. to \$1.25. Some of the prettiest and most popular fabrics of the season are in the 49c. lot. Plain and fancy suitings, both; choicest styles will not last much longer. A new gown will brighten any woman's Christmas.

LOUISVILLE TOBACCO MARKET.

Increased Competition For New Burley. Bidding Spirited and Prices Better All Along the Line.

[Furnished by Glover & Durrett, Louisville Tobacco Warehouse.]

Sales on our market for the week just closed amount to 818 hhds., with receipts for the same period 205 hhds. Sales on our market since January 1st amount to 91,630 hhds. Sales of the crop of 1897 on our market to this date amount to 74,392 hhds.

The total offerings of new burley to date amount to 203 hhds. The new burley offered last week met with more competition than it has done for the past two or three weeks. The bidding was spirited and prices some better all along the line. Nearly all of the offerings are from the counties south of Louisville and the quality is still disappointing to the trade. The best offered sold from \$8.60 to \$10.25. We think these prices, quality considered, from 2 1/2 to 1 cent better than previous week. We had a good rain on Wednesday and look for more liberal receipts in the near future, and hope to have some good crops from the old burley counties, and feel sure we will be able to report much better prices the latter part of this month. The feeling was better in old burley. The common and medium red fillers when in good condition met with more competition at better prices than ruled last week. We also think the bidding was more spirited on the low grades in bad condition. No change from last week's prices in the color sorts.

The following quotations fairly represent our market for burley tobacco (1897) crop:

NOVELTY DRESS GOODS

BARGAINS

In this particular portion of our great Dress Goods stock we have made especially strong efforts, and succeeded in collecting the choicest and cheapest line of "Novelties" ever seen in this vicinity. You'll find 'em in two lots—29c. and 59c. a yard. There is not a yard of the fifty odd bolts that is not worth one-half again as much as the price we're asking. Take a glance at our window display, inspect and be convinced.

20 PER CENT. DISCOUNT ON

SILK PETTICOATS.

Of all of our large stock of those choice Silk Petticoats you've so often admired, there remains just one solitary dozen. We'll hurry the sale of these by giving you a discount of 20 per cent on prices that are already extremely low. They vary in prices from \$4.95 to \$14.50. If you want one you had better call at once.

Notice to Bible Readers!

Do you read the Bible? Of course you do. Well, we want your attention. In our newly-opened Book department you'll find a BIBLE containing both Old and New Testament, sixteen different illustrations, a complete "concordance," two hundred and forty-five pages of "Bible Helps," which includes treatises on the great and minor Prophets, the natural history, geography and topography of the Holy Land, etc. And furthermore, a Bible atlas of fourteen distinct and highly tinted maps. This Bible is printed on good quality of paper, in clear type and bound in soft Morocco. The publisher's price is \$1.75; our price, as long as they last, 98c.

THE NEW OPERA HOUSE.

It Will Require About \$4,000 More to Complete It—An Appeal From the Company.

The committee in charge of the erection of the new opera house find it will require to complete it \$4,000 more money than they have on hand. Up to this time the building has cost in round numbers \$14,500.

The scenery, the chairs, the frescoing, the chandeliers and a few minor details are yet to be provided, and it is to procure these things that the committee now asks for additional contributions.

Many of the original subscribers announced a willingness to double their amounts if it became necessary; and there are many more who have not as yet given anything, who will, the committee feels sure, be prompt to come forward now that their help is needed.

The house will be one of the most complete and most modern amusement halls in the State, and would be a credit to any city. The people of Maysville should respond to this appeal, so that the building may be pushed to completion.

Subscriptions left with the BULLETIN will be promptly reported.

STOCKHOLDERS MUST REFUND.

Demand of the Receiver of the First National Bank of Newport for Return of Four Years Dividends.

CINCINNATI, O., Nov. 14.—Receiver J. P. Wilshire, of the First National Bank of Newport, Ky., wrecked by T. B. Youtsey, has demanded of the stockholders the return of dividends of 4 per cent. paid them in seven annual installments, which, the receiver says, was paid, not out of profits, but out of the bank's capital, when all the while the bank was insolvent.

The stockholders met to-day and appointed three attorneys, ex-Gov. Fiske, O. W. Root and Judge Goebel, to investigate and to sue the bank directors in case the claims of the receiver shall be found tenable at law.

BANK CASE REVERSED.

The Point at Issue in the Suit of Farrow Against the First National Bank of This City.

In the case of Howard Farrow against the First National Bank of this city, recently reversed in Court of Appeals, the appellant pleaded usury under the State law. The bank admitted \$6.45 as amount of usury paid, but claimed that the provision of the National Banking act as to usury was the law of the case, and that the State law did not control.

Judge Harbeson decided that on all questions as to usury, where the transaction was with a National Bank, that the National act alone controlled.

The Court of Appeals held that the borrower could defend under either law, and ordered the debt credited by \$6.45. The amount involved was about \$700.

THE funeral of the late Isaac Newton Parker was held Tuesday afternoon at the home of the family on West Second street, Rev. Howard T. Cree officiating. His death occurred Monday afternoon, after a lingering illness, of consumption. Deceased was nineteen years of age, and realized last summer that his death was only a question of a few months at the best. He united with the Christian Church in August.

It is notoriously true that it is impossible to secure with anything approaching regularity accurate estimates of the wheat production in Russia. Up to several days ago it was the prevailing opinion among those specially interested in the subject that the Russian '98 crop would be comparatively light. Now, it emanates from seemingly reliable sources that a famine is looked for over extensive areas, and that the total yield will show considerable shortage. One consolation is left—no matter how short Russia may be, Uncle Sam has enough to supply the demand.

It has been held that consumption is hereditary and the fact that one person of a family had died with consumption was considered a sure sign that others of that family could not escape it. This is partly true and partly untrue. A man with weak lungs is likely to transmit that weakness to his children. But there is no reason in the world why the weakness should be allowed to develop. Keep the lungs full of rich, red, wholesome blood, and the weakness will disappear. Decayed tissues will be thrown off, and new material will be added until the lungs are well and perfectly strong again. This is the thing that Dr. Pierce's Golden Medical Discovery does. This is what makes it cure 98 per cent. of all cases of consumption where it is taken according to directions. It searches out disease germs wherever they may be in the body and forces them out of the system. It supplies the blood with rich, life-giving properties. It makes the appetite good, digestion perfect. Send 21 cents in one-cent stamps to World's Dispensary Medical Association, Buffalo, N. Y., and receive Dr. Pierce's 1008 page "Common Sense Medical Adviser," profusely illustrated.

ENCOURAGED

By my large and steadily increasing trade, I have determined to meet, to the fullest extent, all the wants of that trade, and have bought more extensively than ever before and have now in stock and daily arriving, bought from first hands for CASH, at rock-bottom prices, what I have no hesitancy in saying is the largest, cleanest, most complete and attractive stock ever offered to the people of Maysville and vicinity. I wish to call special attention to my immense and superior stock of New Crop Molasses, Sorghum, Green and Roasted Coffee, Sugars and Teas of all grades, the finest brands of Sugar Cured Hams, Breakfast Bacon, Boneless Shoulders and pure Leaf Lard; the most complete stock of Canned Goods, Catsup and Pickles; the greatest variety of Raisins, Prunes, Currants, Citron, Lemon and Orange Peel, Figs, Dates, Shelled Almonds and every article in that line fresh and new; Maple Sugar and Maple Syrup, Buckwheat Flour, Graham Flour, Rolled Oats, Oatmeal, Wheatlets, Hominy and Cereals of all kinds; Dr. Price's Flavoring Extracts and Fruit Colorings, the purest and best in the world.

My house will be THE HEADQUARTERS for Poultry, Game, Oysters, Celery, Cranberries, Apples, Oranges, Lemons, Bananas, &c.; in fact every article good to eat and of the very best. I allow no one to handle better goods than I do and I cannot and will not be undersold either here or elsewhere.

Remember I still handle "Perfection" Flour, which is the best, and my Superior Blended Coffee has no equal.

For the Holidays I have made larger purchases than ever before of FIREWORKS of all kinds and CANDIES, so keep a lookout for my great Holiday special, which will be a stunner.

I run two wagons regular, and will deliver all goods sold to any part of the city promptly. A street car ticket given with each cash purchase of \$1.00 or over. Don't fail to call for a Picture Card and secure an elegant Picture of any one of your family.

People from the country are invited to make my house headquarters while in our city.

Drinking Water of Troops at Chickamauga Park.

TESTIMONY OF DR. WEAVER.

He Details to the War Investigating Commission the Harrowing Conditions That Prevailed For a Time at Camp Thomas.

Washington, Nov. 16.—Dr. William G. Weaver of the Ninth Pennsylvania volunteers, was an interesting witness before the war commission.

He gave detailed information concerning the conduct of a regimental hospital at Camp Thomas. Dr. Weaver said that typhoid had broken out about June 18, and that it had increased from that time until Aug. 20. There had been about 600 cases of this disease in the regiment and 28 or 30 deaths. The doctor said there was an insufficient supply of drugs. Quinine was one of the articles of which there had been a scarcity, and 100,000 pills were secured from home. He said that at one time there were 50 typhoid patients in the regimental hospital because there was no accommodation for them in the division hospital. At another time there were 67 fever patients in the company tents for whom admission could not be secured in any hospital, division or regimental.

In summing up the causes of disease in the camp Dr. Weaver included overwork of the men as one. The first reveille sounded at 4:30 and after that time the men were kept quite constantly engaged with drills and other exercises until 6:15, notwithstanding the weather was intensely hot. He also expressed the opinion that the water from Chickamauga creek was polluted. He considered the water in this stream as hardly fit to bathe in, much less to drink.

General Merriam's Views.

San Francisco, Nov. 16.—Major General Merriam is quoted as saying: "I would not surprise me to see that the negotiations between the United States and Spain have been broken off. If the work of the commission has proved fruitless it means renewal of the war. If Spain refused to accede to our demands it will be shown that she has secured substantial hope of assistance or European intervention. Should Germany take a hand in this matter England will follow suit, and then I look for France to put her finger in the pie."

Our Coast Defenses.

Cleveland, Nov. 16.—Colonel Jared A. Smith, United States government engineer, has just returned here after a month's absence, largely spent in inspecting the Atlantic coast defenses of the country, and especially the harbor defenses at New York, Boston and Portland, Me. "Our harbor defenses," said Colonel Smith, "while not yet completed, are sufficiently far advanced that it would be suicidal for a warship of any foreign country to enter any of these harbors, if we objected."

Sickness Decreasing.

Washington, Nov. 16.—The following dispatch has been received at the war department from General Otis at Manila: "Health conditions improving; only six deaths in the last eight days. Sick report decreasing. Five female nurses of the Red Cross are doing excellent work in hospitals here. Twenty competent female nurses who would give strict attention to work would render beneficial services."

Reason for Increasing the Army.

Washington, Nov. 16.—The great demand that has been made for the muster out of volunteer regiments or individual members of such regiments will form the basis of a strong recommendation in the annual message of the president for an increase in the regular army. This new force will be needed to take the place of the volunteers who desire to return home and leave the service.

Charges Against Senator Burke.

Cleveland, Nov. 16.—Another step was taken in the Burke-Dellenbaugh controversy which grew indirectly out of the fight over the election of Senator Hanna in Columbus last winter. The investigating committee of the bar met and formally took up the charge against Vernon Burke, who is a state senator as well as an attorney. The charge is that he slandered Judge Frank E. Dellenbaugh by declaring to a member of the common pleas bench that Dellenbaugh, while a judge, had received remuneration in a case which, when it developed into a suit at law, was heard by him as judge.

Prairie Fires Raging.

Purcell, I. T., Nov. 16.—Prairie fires which have been raging in this vicinity for the past three days have swept away crops and, in some instances, farm houses, causing great damage. Farmers are organizing to fight the fire and will try to prevent it from spreading to the more thickly settled parts.

Tha: Reciprocity Treaty.

Washington, Nov. 16.—Negotiations on the proposed reciprocity treaty between this government and Great Britain relative to the British West Indies have come to a halt, with no present indication that the treaty will be concluded in the near future.

THE EXCELLENCE OF SYRUP OF FIGS

is due not only to the originality and simplicity of the combination, but also to the care and skill with which it is manufactured by scientific processes known to the CALIFORNIA FIG SYRUP CO. only, and we wish to impress upon all the importance of purchasing the true and original remedy. As the genuine Syrup of Figs is manufactured by the CALIFORNIA FIG SYRUP CO. only, a knowledge of that fact will assist one in avoiding the worthless imitations manufactured by other parties. The high standing of the CALIFORNIA FIG SYRUP CO. with the medical profession, and the satisfaction which the genuine Syrup of Figs has given to millions of families, makes the name of the Company a guaranty of the excellence of its remedy. It is far in advance of all other laxatives, as it acts on the kidneys, liver and bowels without irritating or weakening them, and it does not gripe nor nauseate. In order to get its beneficial effects, please remember the name of the Company—
